First pass billing rate

Do away with extra clutter and unnecessary clicks in your EHR with InSync's customizable workflows. Our team works directly with yours to set up unique dashboards for each role in your organization. This allows your staff to only see the tools relevant to their position and removes sensitive information they do not need access to, not only streamlining their work, but keeping the PHI data safe for those you serve.

We're with You Every Step of the Way

- **Intake:** Create custom intake forms or use one of the many prebuilt forms already loaded into the system to speed up and automate much of the intake process.
- **Scheduling:** Easily schedule single, reoccurring, and group sessions and launch appointment right from the calendar.
- **Appointment Reminders:** Send custom appointment reminders to those you serve and drastically reduce your no-shows.
- **Patient Portal:** Allow those you serve to easily request appointments, securely send providers messages, view and pay open balances, and much more.
- **Billing:** Avoid revenue leakage with our fully integrated, HIPAA-compliant medical billing module and accelerate revenue collection up to 70% and boost net revenue and cash collections by an average of 12%.

We are Qualifacts, the EHR market leader for behavioral health, rehabilitative, and human services. Serving more than 75,000 customers, ranging from large Certified Community Behavioral Health Clinics (CCBHCs) and enterprises to small, private practices and everything in between, Qualifacts' comprehensive portfolio has a solution designed for you. Choose Qualifacts' cloud-based integrated solutions to simplify processes throughout the care continuum and improve clinical productivity, virtual care, compliance, state reporting, billing, and business intelligence.
