## Real World Testing Plans

*"Real World Testing is an annual requirement outlined in the [ONC 21<sup>st</sup> Century Cures Act Final Rule](#) for all health IT developers participating in the ONC Health IT Certification Program. The purpose of this [Condition and Maintenance of Certification requirement](#) is for Certified Health IT Developers to demonstrate interoperability and functionality of their certified health IT in real world settings and scenarios rather than in a controlled test environment with an ONC-Authorized Testing Lab. Real World Testing verifies that deployed Certified Health IT continues to perform as intended by conducting and measuring observations of interoperability and data exchange. These observations are described in a public and transparent way through Real World Testing plans and reported as Real World Testing results."*

## Costs and Limitations of the EHR Certified Software

Additional types of costs or fees (whether fixed, recurring, transaction-based, or otherwise) imposed by a health IT developer (or any third-party from whom the developer purchases, licenses, or obtains any technology, products, or services in connection with its certified health IT) to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of capabilities to which health IT is certified; or in connection with any data generated in the course of using any capability to which health IT is certified.

A provider must sign a contract when purchasing CareLogic Enterprise S3. The terms for the contractual obligation are negotiable and include third party add-ons. Our certified product is comprised of the CareLogic Enterprise S3 core system and a few tightly integrated third-party systems that we describe in this Cost and Certification Disclosures document.

CareLogic Enterprise S3 and its integrated DrFirst Rcopia application shall require a monthly fee per prescriber to support 45 CPR §170.315(a) - (1) Computerized provider order entry - medications, §170.315(a)(4) Drug-drug, drug-allergy interaction checks for CPOE, and §170.315(b)(3) Electronic prescribing. There is also a one-time fee for identity proofing for Electronic Prescriptions for Controlled Substances prescribers as well as a one-time identity proofing fee for those prescribers who will not electronically send a controlled substance. There is also a one-time connection fee per Electronic Prescriptions for Controlled Substances (EPCS) prescribers who contract to access the PDMP from within the DrFirst Rcopia application.

CareLogic Enterprise S3 and its integrated Change Healthcare Clinician Exchange Labs application shall require a monthly fee per provider to support the §170.315(a)(2) - Computerized provider order entry - laboratory. Integration with Change Healthcare is one option for meeting CPOE Labs but not the only option. CareLogic Enterprise S3 shall require a monthly fee per mailbox for MaxMD DIRECT messaging which is used for § 170.315(b)(l) Transitions of care and 170.315(h)(l) Direct Project.

CareLogic Enterprise S3 may require a one-time cost to modify or build a custom secure HL 7 file to upload to the public health entity for § 170.315(f)(l) Transmission to immunization registries.

CareLogic Enterprise S3 may charge the user a fee based on utilization per customer agency per month for data storage space for documents in the document library used with § 170.315(b)(l) Transitions of Care and § 170.315(b)(2) Clinical information reconciliation and incorporation.

CareLogic Enterprise S3 may charge a monthly fee per user for the use of CareLogic Enterprise S3 integrated CQM Solution tool by Dynamic Health IT if the user elects to use this tool for § 170.315(c)(1)-(3) Clinical Quality Measures - record and export, import and calculate, and report. This feature is called the Quality Outcomes Platform. The integrated technology provides the aggregation of the clinical quality measures as well as the generation of the QRDA I and QRDA III. The integration also supports the ability to import a QRDA I. There is one time implementation fee per provider as well as a per month per provider fee for access and use of this product.

CareLogic Enterprise S3 may charge a monthly fee per report writer for the use of the ad hoc report writing tool using third party software Pentaho for use with § 170.315(g)(2) Automate Measure Calculation.

CareLogic Enterprise S3 has a license and includes the "Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition."™ Copyright ©2013 content from the American Psychiatric Association." The American Psychiatric Association requires users to gain permission and Qualifacts Systems, Inc. collects a fee for each user of this content. Therefore, Carelogic Enterprise S3 may charge a monthly fee for the use of this Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition diagnosis content which is used for the following criteria § 170.315(a)(9) Clinical decision support (CDS), § 170.315(b)(l) Transitions of care, § 170.315(b)(2) Clinical information reconciliation and incorporation, § 170.315(f)(1) Transmission to immunization registries, § 170.315(c)(1-3) Clinical Quality Measures - record and export, import and calculate, and report, and § 170.315(b)(6) Data export.

CareLogic Enterprise S3 is integrated with the Updox patient portal. There is a one-time setup fee per agency plus a per month per user fee for providers to utilize the Updox patient portal. There is no fee for the patients to utilize the Updox patient portal. The patient portal is used for the following criteria § 170.315(e)(l) - View, download and transmit to 3<sup>rd</sup> party, § 170.315(g)(2) Automated measure calculation, § 170.315(e)(3) Patient health information capture, and § 170.315(a)(13) Patient-specific education resources.

CareLogic Enterprise S3 includes middleware called CareLogic Integration Hub that can be used for connecting CareLogic to other systems such as other EHRs, laboratories or HIEs. If a customer requests a custom connection with another system, there is a one-time implementation fee as well as an ongoing monthly recurring fee.

CareLogic Enterprise S3 includes an integration, using infobutton technology, with a third- party clinical information resources tool called EBSCO Dynamed. The infobutton technology allows this tool to be leveraged during clinical decision making. There is a per month per agency fee for access and use of this product. Dynamed can be used for the following criteria § 170.315(a)(9) Clinical decision support (CDS).

We agree to notify Drummond Group of any and all future changes to our transparency and disclosures language for this certified product version.
