Disclosure Attestation

Disclaimer: *This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.*

This Cost and Certification Disclosure is provided to document costs and additional information on the certified Credible by Qualifacts platform. This disclosure is posted publicly at <https://www.qualifacts.com/onc-documentation/> and on the ONC Certified HealthIT Product List ([CHPL](#)).

Credible agrees to notify Drummond Group of any and all future changes to our transparency and disclosures language for this certified product-version. Furthermore, Credible understands and agrees that the ONC Health IT Certification Program Final Rule statement gives Drummond Group, as an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EHR technology developers fail to divulge accurate transparency and disclosures information.

Credible, in addition, understands and agrees to provide Drummond Group copies of or give access to any and all websites, marketing materials, communication statements, and other assertions made by Credible regarding the ONC certification status of this product in a reasonable time to ensure the transparency and disclosures information is being accurately disclosed.

General Information

| | |
|--|--|
| Developer Name: | Credible Behavioral Health, Inc. |
| Product Name: | Credible Behavioral Health |
| Version Number: | Version 11 |
| Certified Health IT Product List (CHPL) ID: | ONC CHPL ID: 15.04.04.3124.Care.S3.00.1.181220, CHPL link |
| ONC-ACB Certification ID: | 15.04.04.3124.Care.S3.00.1.181220 |
| Certification Edition | 2015 Cures Update |
| ONC-Authorized Certification Body: | Drummond Group https://www.drummondgroup.com/ |
| Certification Date: | December 30, 2022 |

Criteria Certified

- 170.315 (a)(1): Computerized Provider Order Entry (CPOE) - Medications
- 170.315 (a)(2): CPOE - Laboratory
- 170.315 (a)(3): CPOE - Diagnostic Imaging
- 170.315 (a)(4): Drug-Drug, Drug-Allergy Interaction Checks for CPOE
- 170.315 (a)(5): Demographics
- 170.315 (a)(9): Clinical Decision Support
- 170.315 (a)(12): Family Health History
- 170.315 (a)(14): Implantable Device List
- 170.315 (a)(15): Social, Psychological, and Behavioral Determinants Data
- 170.315 (b)(1): Transitions of Care (*Cures Update*)
- 170.315 (b)(2): Clinical Information Reconciliation and Incorporation (*Cures Update*)
- 170.315 (b)(3): Electronic Prescribing (*Cures Update*)
- 170.315 (b)(6): Data Export
- 170.315 (b)(8): Security Tags - Summary of Care - Receive (*Cures Update*)
- 170.315 (c)(1): Clinical Quality Measures - Record and Export
- 170.315 (c)(2): Clinical Quality Measures - Import and Calculate
- 170.315 (c)(3): Clinical Quality Measures - Report (*Cures Update*)
- 170.315 (c)(4): Clinical Quality Measures - Filter
- 170.315 (d)(1): Authentication, Access Control, Authorization
- 170.315 (d)(2): Auditable Events and Tamper-Resistance (*Cures Update*)
- 170.315 (d)(3): Audit Report(s) (*Cures Update*)
- 170.315 (d)(4): Amendments
- 170.315 (d)(5): Automatic Access Time-out

- 170.315 (d)(6): Emergency Access
- 170.315 (d)(7): End-User Device Encryption
- 170.315 (d)(8): Integrity
- 170.315 (d)(9): Trusted Connection
- 170.315 (d)(12): Encrypt Authentication Credentials (*Cures Update*)
- 170.315 (d)(13): Multi-Factor Authentication (*Cures Update*)
- 170.315 (e)(1): View, Download, and Transmit to 3rd Party (*Cures Update*)
- 170.315 (e)(3): Patient Health Information Capture
- 170.315 (f)(1): Transmission to Immunization Registries
- 170.315 (f)(2): Transmission to Public Health Agencies - Syndromic Surveillance
- 170.315 (f)(5): Transmission to Public Health Agencies - Electronic Case Reporting (*Cures Update*)
- 170.315 (g)(2): Automated Measure Calculation
- 170.315 (g)(3): Safety-Enhanced Design
- 170.315 (g)(4): Quality Management System
- 170.315 (g)(5): Accessibility-Centered Design
- 170.315 (g)(6): Consolidated CDA Creation Performance (*Cures Update*)
- 170.315 (g)(7): Application Access - Patient Selection
- 170.315 (g)(9): Application Access - All Data Request (*Cures Update*)
- 170.315 (g)(10): Standardized API for Patient and Population Services (*Cures Update*)
- 170.315 (h)(1): Direct Project

Clinical Quality Measures Certified

| Version | Quality Measure | 170.318 (c)(1) | 170.318 (c)(2) | 170.318 (c)(3) | 170.318 (c)(4) |
|---------|--|-------------------|-------------------|-------------------|-------------------|
| v6 | CMS2: Preventive Care and Screening: Screening for Depression and Follow-Up Plan | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS50: Closing the Referral Loop: Receipt of Specialist Report | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS62: HIV/AIDS: Medical Visit | ✓ | ✓ | ✓ | ✓ |
| v6 | CMS68: Documentation of Current Medications in the Medical Record | ✓ | ✓ | ✓ | ✓ |

| v4 | CMS82: Maternal Depression Screening | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS128: Anti-depressant Medication Management | ✓ | ✓ | ✓ | ✓ |
| v6 | CMS136: Follow-Up Care for Children Prescribed ADHD Medication (ADD) | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS137: Initiation and Engagement of Alcohol and Other Drug Dependence Treatment | ✓ | ✓ | ✓ | ✓ |

| | | | | | |
|----|---|---|---|---|---|
| v5 | CMS138: Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS139: Falls: Screening for Future Fall Risk | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS149: Dementia: Cognitive Assessment | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS155: Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS156: Use of High-Risk Medications in the Elderly | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS159: Depression Remission at Twelve Months | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS160: Depression Utilization of the PHQ-9 Tool | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS161: Adult Major Depressive Disorder (MDD): Suicide Risk Assessment | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS165: Controlling High Blood Pressure | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS169: Bipolar Disorder and Major Depression: Appraisal for alcohol or chemical substance use | ✓ | ✓ | ✓ | ✓ |
| v5 | CMS177: Child and Adolescent Major Depressive Disorder (MDD): Suicide Risk Assessment | ✓ | ✓ | ✓ | ✓ |

Relied Upon Software

Additional software relied upon to demonstrate compliance: NLM Access GUDI API, Surescripts Clinical Direct Messaging, Dynamic Health IT CQM Solution, Microsoft NTP, Firely, Duende.

Real World Testing Plans

"Real World Testing is an annual requirement outlined in the [ONC 21st Century Cures Act Final Rule](#) for all health IT developers participating in the ONC Health IT Certification Program. The purpose of this [Condition and Maintenance of Certification requirement](#) is for Certified Health IT Developers to demonstrate interoperability and functionality of their certified health IT in real world settings and scenarios rather than in a controlled test environment with an ONC-Authorized Testing Lab. Real World Testing verifies that deployed Certified Health IT continues to perform as intended by conducting and measuring observations of interoperability and data exchange. These observations are described in a public and transparent way through Real World Testing plans and reported as Real World Testing results."

Costs and Limitations of the EHR Certified Software

We agree to notify Drummond Group of any and all future changes to our transparency and disclosures language for this certified product version.

| Capability | Description of Capability | Costs or Fees* |
|---|--|---|
| <i>*Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability</i> | | |
| 170.315(a)(1) Computerized provider order entry (CPOE) – medications | This functionality enables users to electronically record, change and access Medication orders | One-time implementation fee; monthly fee |
| 170.315(a)(2) Computerized Provider Order Entry (CPOE) - Laboratory | This functionality enables users to electronically record, change and access Laboratory orders | One-time implementation fee; monthly fee |
| 170.315(a)(3) Computerized Provider Order Entry (CPOE) - Diagnostic Imaging | This functionality enables users to electronically record, change and access Radiology/imaging orders | One-time implementation fee; monthly fee |
| 170.315(a)(4) Drug-to-Drug, Drug-to- Allergy interaction checks | When adding or prescribing a medication, the system automatically and electronically indicates to a user drug-drug and drug-allergy contraindications based on a patient's medication and medication allergy lists. The system enables administrators to adjust the severity level of interventions provided for drug-drug interaction checks and to provide a limited set of users the ability to adjust severity levels. | One-time implementation fee; monthly fee |
| 170.315(a)(5) Demographics | This functionality enables a user to electronically record, change, and access patient demographic data, including preferred language, sex, race, ethnicity, sexual orientation, gender identity, and date of birth. | One-time implementation fee; monthly fee |
| 170.315(a)(9) Clinical Decision Support | This functionality enables an administrative user to configure decision support rules that will automatically provide content to clinicians. | Access to 3rd party clinical support information is a separate contract item and may incur additional fees. |
| 170.315(a) (12) Family health history | This functionality enables a user to record, change, and access a patient's family health history in accordance with the familial concepts or expressions included in SNOMED standards. | One-time implementation fee; monthly fee |
| 170.315(a)(14) Implantable Devices | This functionality enables capture of patient implantable device data as history in the chart. The EHR interacts with FDA Web access GUDID to | One-time implementation fee; monthly fee |

| | | |
|---|---|---|
| | incorporate the device ID and Unique device Identifiers for the implantable device. | |
| 170.315(a)(15) Social, Psychological, and Behavioral Determinants Data | This functionality enables a user to electronically record, change, and access clinical data related to Social, Psychological, and Behavioral Determinants of Health. | One-time implementation fee; monthly fee |
| 170.315(b)(1) Transitions of care | This functionality enables a user to electronically create and transmit a transition of care/referral summary in C-CDA format, which includes encounter diagnoses, immunizations, cognitive status, functional status, the reason for referral, and referring or transitioning the provider's name and office contact information. The solution follows C-CDA and Direct standards. | One-time implementation fee; monthly fee |
| 170.315(b)(2) Clinical information reconciliation and incorporation | This functionality enables a user to electronically reconcile problems, medication allergies, and medications listed in an incoming transition of care/referral summary C-CDA format against the patient's existing medication, problem, and medication-allergy lists in the EHR. | One-time implementation fee; monthly fee |
| 170.315(b)(3) Electronic prescribing | Provides the ability of designated to users create and send electronic prescriptions | One-time implementation fee; monthly fee |
| 170.315(b)(6) Data export | This functionality enables a user to electronically create a set of export summaries for all patients in C-CDA format that represents the most current clinical information about each patient. It includes clinical data defined in the Common Clinical Data Set, the reason for referral, and the referring or transitioning provider's name and office contact information. | One-time implementation fee; monthly fee |
| 170.315(b)(8) Security Tags - Summary of Care - Receive | This functionality enables the display of security information received in a C-CCDA. | One-time implementation fee; monthly fee |
| 170.315(c)(1-4) Clinical quality measures (CQMs) | Credible uses a fully integrated installation of CQM Solution from Dynamic HealthIT for Clinical Quality Measures (CQM) reporting. | Access to the CQM Solution tool requires licensing and may incur separate fees. |
| 170.315(d)(1) Authentication, access control, authorization | This functionality verifies against a username that a user seeking access to electronic health information is the one | One-time implementation fee; monthly fee |

| | | |
|---|--|---|
| | claimed and establishes the type of access to electronic health information a user is permitted based upon security roles. | |
| 170.315(d)(2) Auditable events and tamper-resistance | This functionality logs and audits user activity while accessing the system and provides a mechanism to assure the information audited is not tampered. | One-time implementation fee; monthly fee |
| 170.315(d)(3) Audit report(s) | This functionality enables a user to create an audit report for a specific time period and to sort entries in the audit log. | One-time implementation fee; monthly fee |
| 170.315(d)(4) Amendments | Allows users to record amendments to the clinical record. | One-time implementation fee; monthly fee |
| 170.315(d)(5) Automatic access time-out | This functionality automatically stops user access to health information after a predetermined period of inactivity | One-time implementation fee; monthly fee |
| 170.315(d)(6) Emergency access | This functionality permit an identified set of users to access electronic health information during an emergency. | One-time implementation fee; monthly fee |
| 170.315(d)(7) End-user device encryption | Only Credible Mobile is designed to locally store electronic health information on end- user devices | Access to Credible Mobile is a separate contract item with additional fees. |
| 170.315(d)(8) Integrity | This functionality allows the system to create a message digest using a hashing algorithm with a security strength equal to or greater than SHA-2. to ensure that the content has not been altered. | One-time implementation fee; monthly fee |
| 170.315(d)(9) Trusted connection | Encrypt and integrity protect message contents in accordance with the standards. A hashing algorithm with a security strength equal to or greater than SHA-2 is used | One-time implementation fee; monthly fee |
| 170.315(e)(1) View, download, and transmit | This functionality enables patients to view, download or transmit their health information in the Credible Client Portal. The data encompasses the Common Clinical Data set, and may include other data, including notes and documents. Changes to the client's chart in the Credible EHR are immediately available in the Credible Client Portal. | One-time implementation fee; monthly fee |
| 170.315(e)(3) Patient health information capture | Credible Client Portal enables users to capture health information. | One-time implementation fee; monthly fee |

| | | |
|---|--|--|
| 170.315(f)(1) Transmission to immunization registries | This functionality electronically transmits the recorded or changed immunization information to a state registry using HL7 Immunization Messaging standard. It also includes immunization history and forecasting from the registry | One-time implementation fee; monthly fee |
| 170.315(f)(2) Transmission to public health agencies – syndromic surveillance | This functionality enables the EHR to electronically create syndrome-based public health surveillance information in accordance to the HL7 PHIN standard for Syndromic Surveillance. | One-time implementation fee; monthly fee |
| 170.315(f)(5) Transmission to Public Health Agencies - Electronic Case Reporting | This functionality enables the EHR to electronically create an export of data related to Electronic Case Reporting. | One-time implementation fee; monthly fee. Additional fees may be incurred for customization related to meeting a specific public health agency's requirements. |
| 170.315(g)(2) Automated measure calculation | This functionality enables recording and calculating objective measures. | One-time implementation fee; monthly fee |
| 170.315(g)(3) Safety- enhanced design | Credible Behavioral Health meets the summative usability guidelines for end users. | One-time implementation fee; monthly fee |
| 170.315(g)(6) Consolidated CDA creation performance | This functionality certifies the CDA performance for all CDA documents generated from certified EHR to ONC prescribed standards. | One-time implementation fee; monthly fee |
| 170.315(g)(7) Application access – patient selection | Provides an API to able to receive a request with sufficient information to uniquely identify a patient and return an ID or other token that can be used by an application to subsequently execute requests for that patient's data. | One-time implementation fee; monthly fee |
| 170.315(g)(9) Application access – all data request | Enables connectivity with 3rd party application APIs to request data | One-time implementation fee; monthly fee |
| 170.315(g)(10) Standardized API for Patient and Population Services | Enables connectivity with 3rd party application APIs to request data via FHIR | One-time implementation fee; monthly fee; Use of production FHIR APIs requires additional contracting and may incur monthly usage fees |
| 170.315(h)(1) Direct Project | This functionality allows certified EHR to connect with any HIE and demonstrate interoperability using DIRECT protocols. | One-time implementation fee; monthly fee |
