## Disclosure Attestation

**Disclaimer:** *This Health IT Module is compliant with the ONC Certification Criteria for Health IT and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.*

This Cost and Certification Disclosure is provided to document costs and additional information on the certified Qualifacts Credible platform. This disclosure is posted publicly at <https://www.qualifacts.com/onc-documentation/> and on the ONC Certified HealthIT Product List (CHPL).

Credible agrees to notify Drummond Group of any and all future changes to our transparency and disclosure language for this certified product version. Furthermore, Credible understands and agrees that the ONC Health IT Certification Program Final Rule statement gives Drummond Group, as an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EHR technology developers fail to divulge accurate transparency and disclosure information.

Credible, in addition, understands and agrees to provide Drummond Group copies of or give access to any and all websites, marketing materials, communication statements, and other assertions made by Credible regarding the ONC certification status of this product in a reasonable time to ensure the transparency and disclosures information is being accurately disclosed.

## General Information

<b>Developer Name:</b>	Qualifacts Systems, LLC
<b>Product Name:</b>	Credible Behavioral Health
<b>Version Number:</b>	Version 11
<b>Certified Health IT Product List (CHPL) ID:</b>	ONC CHPL ID: 15.04.04.3124.Care.S3.00.1.181220, <a href="#">CHPL link</a>
<b>ONC-Authorized Certification Body:</b>	Drummond Group   <a href="https://www.drummondgroup.com/">https://www.drummondgroup.com/</a>
<b>Certification Date:</b>	December 30, 2022

## Criteria Certified

- 170.315 (a)(1): Computerized Provider Order Entry (CPOE) - Medications
- 170.315 (a)(2): CPOE - Laboratory
- 170.315 (a)(3): CPOE - Diagnostic Imaging
- 170.315 (a)(4): Drug-Drug, Drug-Allergy Interaction Checks for CPOE
- 170.315 (a)(5): Demographics
- 170.315 (a)(9): Clinical Decision Support
- 170.315 (a)(12): Family Health History
- 170.315 (a)(14): Implantable Device List
- 170.315 (a)(15): Social, Psychological, and Behavioral Determinants Data
- 170.315 (b)(1): Transitions of Care
- 170.315 (b)(2): Clinical Information Reconciliation and Incorporation
- 170.315 (b)(3): Electronic Prescribing
- 170.315 (b)(10): Electronic Health Information export
- 170.315 (c)(1): Clinical Quality Measures - Record and Export
- 170.315 (c)(2): Clinical Quality Measures - Import and Calculate
- 170.315 (c)(3): Clinical Quality Measures - Report
- 170.315 (c)(4): Clinical Quality Measures - Filter
- 170.315 (d)(1): Authentication, Access Control, Authorization

- 170.315 (d)(2): Auditable Events and Tamper-Resistance
- 170.315 (d)(3): Audit Report(s)
- 170.315 (d)(4): Amendments
- 170.315 (d)(5): Automatic Access Time-out
- 170.315 (d)(6): Emergency Access
- 170.315 (d)(7): End-User Device Encryption
- 170.315 (d)(8): Integrity
- 170.315 (d)(9): Trusted Connection
- 170.315 (d)(12): Encrypt Authentication Credentials
- 170.315 (d)(13): Multi-Factor Authentication
- 170.315 (e)(1): View, Download, and Transmit to 3rd Party
- 170.315 (e)(3): Patient Health Information Capture
- 170.315 (f)(1): Transmission to Immunization Registries
- 170.315 (f)(2): Transmission to Public Health Agencies - Syndromic Surveillance
- 170.315 (f)(5): Transmission to Public Health Agencies - Electronic Case Reporting
- 170.315 (g)(2): Automated Measure Calculation
- 170.315 (g)(3): Safety-Enhanced Design
- 170.315 (g)(4): Quality Management System
- 170.315 (g)(5): Accessibility-Centered Design
- 170.315 (g)(6): Consolidated CDA Creation Performance
- 170.315 (g)(7): Application Access - Patient Selection
- 170.315 (g)(9): Application Access - All Data Request
- 170.315 (g)(10): Standardized API for Patient and Population Services
- 170.315 (h)(1): Direct Project

## Clinical Quality Measures Certified

Version	Quality Measure	170.318 (c)(1)	170.318 (c)(2)	170.318 (c)(3)	170.318 (c)(4)
v6	CMS2: Preventive Care and Screening: Screening for Depression and Follow-Up Plan	✓	✓	✓	✓
v5	CMS50: Closing the Referral Loop: Receipt of Specialist Report	✓	✓	✓	✓
v5	CMS62: HIV/AIDS: Medical Visit	✓	✓	✓	✓
v6	CMS68: Documentation of Current Medications in the Medical Record	✓	✓	✓	✓
v5	CMS69: Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	✓	✓	✓	✓
v4	CMS82: Maternal Depression Screening	✓	✓	✓	✓
v5	CMS128: Anti-depressant Medication Management	✓	✓	✓	✓
v6	CMS136: Follow-Up Care for Children Prescribed ADHD Medication (ADD)	✓	✓	✓	✓
v5	CMS137: Initiation and Engagement of Alcohol and Other Drug Dependence Treatment	✓	✓	✓	✓
v5	CMS138: Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	✓	✓	✓	✓
v5	CMS139: Falls: Screening for Future Fall Risk	✓	✓	✓	✓
v5	CMS149: Dementia: Cognitive Assessment	✓	✓	✓	✓
v5	CMS155: Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents	✓	✓	✓	✓
v5	CMS156: Use of High-Risk Medications in the Elderly	✓	✓	✓	✓
v5	CMS159: Depression Remission at Twelve Months	✓	✓	✓	✓
v5	CMS160: Depression Utilization of the PHQ-9 Tool	✓	✓	✓	✓

v5	CMS161: Adult Major Depressive Disorder (MDD): Suicide Risk Assessment	✓	✓	✓	✓
v5	CMS165: Controlling High Blood Pressure	✓	✓	✓	✓
v5	CMS169: Bipolar Disorder and Major Depression: Appraisal for alcohol or chemical substance use	✓	✓	✓	✓
v5	CMS177: Child and Adolescent Major Depressive Disorder (MDD): Suicide Risk Assessment	✓	✓	✓	✓

## Relied Upon Software

Additional software relied upon to demonstrate compliance: Surescripts Clinical Direct Messaging for § 170.315(e)(1) and § 170.315(h)(1), Dynamic Health IT CQM solution for § 170.315(c)(1) to (c)(3), Microsoft NTP for § 170.315(e)(1), and Firely (Version 4.11.0-alpha-build-20221018.2) and Duende (Version 6.0.2) for § 170.315(g)(10).

## Real World Testing Plans

"Real World Testing is an annual requirement outlined in the [ONC 21<sup>st</sup> Century Cures Act Final Rule](#) for all health IT developers participating in the ONC Health IT Certification Program. The purpose of this [Condition and Maintenance of Certification requirement](#) is for Certified Health IT Developers to demonstrate interoperability and functionality of their certified health IT in real world settings and scenarios rather than in a controlled test environment with an ONC-Authorized Testing Lab. Real World Testing verifies that deployed Certified Health IT continues to perform as intended by conducting and measuring observations of interoperability and data exchange. These observations are described in a public and transparent way through Real World Testing plans and reported as Real World Testing results."

**The published Real World Plans for Qualifacts InSync can be found at <https://www.qualifacts.com/onc-certification-and-costs/>**

## Costs of the EHR-Certified Software

We agree to notify Drummond Group of any and all future changes to our transparency and disclosure language for this certified product version.

Capability	Description of Capability	Costs or Fees*
<i>*Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability</i>		
<b>170.315(a)(1) Computerized provider order entry (CPOE) – medications</b>	This functionality enables users to electronically record, change and access Medication orders	One-time implementation fee; monthly fee
<b>170.315(a)(2) Computerized Provider Order Entry (CPOE) - Laboratory</b>	This functionality enables users to record, change, and access Laboratory orders electronically	One-time implementation fee; monthly fee
<b>170.315(a)(3) Computerized Provider Order Entry (CPOE) - Diagnostic Imaging</b>	This functionality enables users to electronically record, change, and access Radiology/imaging orders	One-time implementation fee; monthly fee
<b>170.315(a)(4) Drug-to-Drug, Drug-to- Allergy interaction checks</b>	When adding or prescribing a medication, the system automatically and electronically indicates drug-drug and drug-allergy contraindications to a user based on a patient’s medication and medication allergy lists. The system enables administrators to adjust the severity level of interventions provided for drug-drug interaction checks and to provide a limited set of users the ability to adjust severity levels.	One-time implementation fee; monthly fee
<b>170.315(a)(5) Demographics</b>	This functionality enables a user to electronically record, change, and access patient demographic data, including preferred language, sex, race, ethnicity, sexual orientation, gender identity, and date of birth.	One-time implementation fee; monthly fee
<b>170.315(a)(9) Clinical Decision Support</b>	This functionality enables an administrative user to configure decision support rules that will automatically provide content to clinicians.	Access to 3rd party clinical support information is a separate contract item and may incur additional fees.

<b>170.315(a)(12) Family health history</b>	This functionality enables a user to record, change, and access a patient's family health history in accordance with the familial concepts or expressions included in SNOMED standards.	One-time implementation fee; monthly fee
<b>170.315(a)(14) Implantable Devices</b>	This functionality enables capture of patient implantable device data as history in the chart. The EHR interacts with FDA Web access GUDID to incorporate the device ID and Unique device Identifiers for the implantable device.	One-time implementation fee; monthly fee
<b>170.315(a)(15) Social, Psychological, and Behavioral Determinants Data</b>	This functionality enables a user to electronically record, change, and access clinical data related to Social, Psychological, and Behavioral Determinants of Health.	One-time implementation fee; monthly fee
<b>170.315(b)(1) Transitions of care</b>	This functionality enables a user to electronically create and transmit a transition of care/referral summary in C-CDA format, which includes encounter diagnoses, immunizations, cognitive status, functional status, the reason for referral, and referring or transitioning the provider's name and office contact information. The solution follows C-CDA and Direct standards.	One-time implementation fee; monthly fee
<b>170.315(b)(2) Clinical information reconciliation and incorporation</b>	This functionality enables a user to electronically reconcile problems, medication allergies, and medications listed in an incoming transition of care/referral summary C-CDA format against the patient's existing medication, problem, and medication allergy lists in the EHR.	One-time implementation fee; monthly fee
<b>170.315(b)(3) Electronic prescribing</b>	Provides the ability of designated users to create and send electronic prescriptions	One-time implementation fee; monthly fee

<b>170.315(b)(8) Security Tags - Summary of Care - Receive</b>	This functionality enables the display of security information received in a C-CCDA.	One-time implementation fee; monthly fee
<b>170.315(c)(1-4) Clinical quality measures (CQMs)</b>	Credible uses a fully integrated installation of CQM Solution from Dynamic HealthIT for Clinical Quality Measures (CQM) reporting.	Access to the CQM Solution tool requires licensing and may incur separate fees.
<b>170.315(d)(1) Authentication, access control, authorization</b>	This functionality verifies against a username that a user seeking access to electronic health information is the one claimed and establishes the type of access to electronic health information a user is permitted based upon security roles.	One-time implementation fee; monthly fee
<b>170.315(d)(2) Auditable events and tamper-resistance</b>	This functionality logs and audits user activity while accessing the system and provides a mechanism to ensure the information audited is not tampered with.	One-time implementation fee; monthly fee
<b>170.315(d)(3) Audit report(s)</b>	This functionality enables a user to create an audit report for a specific time period and to sort entries in the audit log.	One-time implementation fee; monthly fee
<b>170.315(d)(4) Amendments</b>	Allows users to record amendments to the clinical record.	One-time implementation fee; monthly fee
<b>170.315(d)(5) Automatic access time-out</b>	This functionality automatically stops user access to health information after a predetermined period of inactivity	One-time implementation fee; monthly fee
<b>170.315(d)(6) Emergency access</b>	This functionality permits an identified set of users to access electronic health information during an emergency.	One-time implementation fee; monthly fee
<b>170.315(d)(7) End-user device encryption</b>	Only Credible Mobile is designed to locally store electronic health information on end-user devices	Access to Credible Mobile is a separate contract item with additional fees.
<b>170.315(d)(8) Integrity</b>	This functionality allows the system to create a message digest using a hashing algorithm with a security strength equal to or greater than SHA-2. to ensure that the content has not been altered.	One-time implementation fee; monthly fee

<b>170.315(d)(9) Trusted connection</b>	Encrypt and integrity protect message contents in accordance with the standards. A hashing algorithm with a security strength equal to or greater than SHA-2 is used	One-time implementation fee; monthly fee
<b>170.315(e)(1) View, download, and transmit</b>	This functionality enables patients to view, download, or transmit their health information in the Credible Client Portal. The data encompasses the Common Clinical Data set and may include other data, including notes and documents. Changes to the client's chart in the Credible EHR are immediately available in the Credible Client Portal.	One-time implementation fee; monthly fee
<b>170.315(e)(3) Patient health information capture</b>	Credible Client Portal enables users to capture health information.	One-time implementation fee; monthly fee
<b>170.315(f)(1) Transmission to immunization registries</b>	This functionality electronically transmits the recorded or changed immunization information to a state registry using the HL7 Immunization Messaging standard. It also includes immunization history and forecasting from the registry	One-time implementation fee; monthly fee
<b>170.315(f)(2) Transmission to public health agencies – syndromic surveillance</b>	This functionality enables the EHR to electronically create syndrome-based public health surveillance information in accordance with the HL7 PHIN standard for Syndromic Surveillance.	One-time implementation fee; monthly fee
<b>170.315(f)(5) Transmission to Public Health Agencies - Electronic Case Reporting</b>	This functionality enables the EHR to electronically create an export of data related to Electronic Case Reporting.	One-time implementation fee; monthly fee. Additional fees may be incurred for customization related to meeting a specific public health agency's requirements.
<b>170.315(g)(2) Automated measure calculation</b>	This functionality enables recording and calculating objective measures.	One-time implementation fee; monthly fee

<b>170.315(g)(3)</b> <b>Safety- enhanced design</b>	Credible Behavioral Health meets the summative usability guidelines for end users.	One-time implementation fee; monthly fee
<b>170.315(g)(6)</b> <b>Consolidated CDA creation performance</b>	This functionality certifies the CDA performance for all CDA documents generated from certified EHR to ONC-prescribed standards.	One-time implementation fee; monthly fee
<b>170.315(g)(7)</b> <b>Application access – patient selection</b>	Provides an API able to receive a request with sufficient information to uniquely identify a patient and return an ID or other token that can be used by an application to subsequently execute requests for that patient’s data.	One-time implementation fee; monthly fee
<b>170.315(g)(9)</b> <b>Application access – all data request</b>	Enables connectivity with 3rd party application APIs to request data.	One-time implementation fee; monthly fee
<b>170.315(h)(1)</b> <b>Direct Project</b>	This functionality allows certified EHR to connect with any HIE and demonstrate interoperability using DIRECT protocols.	One-time implementation fee; monthly fee
