Relied Upon Software

For the following measures, Qualifacts InSync uses [Secure Exchange Solutions](#) and the clinical exchange solution software and an additional 3rd party partner for § 170.315(a)(15), § 170.315(b)(1), § 170.315(e)(1), § 170.315(h)(1), [Dynamic Health IT](#) CQM solution for § 170.315(c)(1) to (c)(3), and [Smile CDR Inc](#) for § 170.315 (g)(10).

Real World Testing Plans

"Real World Testing is an annual requirement outlined in the [ONC 21st Century Cures Act Final Rule](#) for all health IT developers participating in the ONC Health IT Certification Program. The purpose of this [Condition and Maintenance of Certification requirement](#) is for Certified Health IT Developers to demonstrate interoperability and functionality of their certified health IT in real world

settings and scenarios rather than in a controlled test environment with an ONC-Authorized Testing Lab. Real World Testing verifies that deployed Certified Health IT continues to perform as intended by conducting and measuring observations of interoperability and data exchange. These observations are described in a public and transparent way through Real World Testing plans and reported as Real World Testing results."

Costs of the EHR-Certified Software

Additional types of costs or fees (whether fixed, recurring, transaction-based, or otherwise) imposed by a health IT developer (or any third-party from whom the developer purchases, licenses, or obtains any technology, products, or services in connection with its certified health IT) to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of capabilities to which health IT is certified; or in connection with any data generated in the course of using any capability to which health IT is certified.

- One-time license fee, applicable per provider
- SAAS Model Cost – Clients pay a fixed monthly fee per provider to use the software and services as stated in the signed contract.
- One-time cost/each integration setup – integration fee for each health information exchange such as Lab Interface, HL7 Interface, Immunization Interface, Imaging Interface, etc., where applicable.
- E-Prescribing – Monthly cost per e-prescribing/e-checking provider.
- CQM solution for clinical quality measurement analysis and reporting incurs a one-time setup fee and an ongoing monthly subscription fee.
- Direct Email – No cost for initial practice-level Direct Email; however, if the client wants provider-level Direct Email, it has a monthly fee.
